Vienna, VA - December 18, 2014 - Futrend Technology, Inc. (FUTREND) announced today that it has been awarded a General Services Administration (GSA) Schedule 520 Government Wide Acquisition Contract (GWAC). Schedule 520 provides Accounting, Program Management, and Commercial Activities for Financial Management Services. "This is a strategic win for us," said FUTREND president Yvonne Zhou. "We are able to provide high quality financial services to our government customers faster with lower costs. We can make a difference in improving the efficiency and effectiveness in government."

About Futrend Technology, Inc.

Futrend Technology, Inc., an ISO 9001:2008 certified company with a Capability Maturity Model Integration (CMMI) Level II appraisal is dedicated to improving efficiency and effectiveness by leveraging information technology and its application in support of business operations. We believe that IT is an enabler that must solve business problems. Supporting both government agencies and commercial organizations, FUTREND provides unsurpassed value in three core competencies: Healthcare IT, Federal Financial Management, and Grants Management.
