

FUTREND's Vamsi Motaparthy Receives 2012 NIH Director's Award

Pauline Retener
Futrend Technology, Inc.

VIENNA, VA (July 25, 2012) – Futrend Technology, Inc.'s Vamsi Motaparthy received the National Institutes of Health's (NIH) Director's Award on July 18, 2012. This prestigious award is presented to individuals who "have gone beyond the call of duty in a wide range of fields, including research, clinical care, mentoring, administration, and many more. Their achievements ... exemplify the spirit of excellence at NIH."

Working with the NIH, Mr. Motaparthy and his fellow technical team members provide support to the NIH Office of Research Services and Office of Research Facilities on Development, Modernization, and Enhancement (DME), as well as Operations and Maintenance (O&M). Their work involves SharePoint development, web maintenance for content management systems, and professional project management.

Mr. Motaparthy is part of the Electronic Invoice Routing, Tracking and Approval Solution Team. He was recognized for his innovation, development, and implementation of electronic invoice systems that track contract expenditures, CAN balances, Appropriations Law compliance, and meeting

prompt payment timeframes.

FUTREND has been a recognized and well-respected contractor within the NIH agency. FUTREND's Technical Team has also been providing NIH with exceptional services for other contracts. The FUTREND Team delivers proven expertise in delivering Service-Oriented Architecture (SOA) and web services and Information Technology (IT) Operations and Maintenance (O&M) support.

FUTREND's goal is to consistently provide quality services to delight the customer. NIH has recognized Mr. Motaparthi's dedicated efforts in this regard.

Congratulations, Vamsi!
