VIENNA, VA. (July 26, 2011) – FUTREND staff members, Andrey Paykis and Albert Pulido, received the Department of Health and Human Services (HHS) Program Support Center’s (PSC) Green Visor award. The Green Visor is a prestigious award presented monthly to an individual who goes above and beyond the call of duty, providing outstanding service for, and on behalf of, the agency.

Andrey was praised by the General Accounting Branch (GAB) for his “continued efforts and support of the DFO mission in various areas: System Testing for enhancements and point releases; Interest Analysis reported to all levels of PSC and customer management; continued support in defining the Third-party Draft entries for Carville; contributions in creating the “Life of an Invoice” document; OS Training; and more that are too numerous to list out on this recognition.”

Albert was commended for his ongoing efforts and support of the special programs serviced by DFO. “There have been various new requirements of these programs and his continued commitment to this process has ensured the payment process as well as the resulting reporting continue to meet customer expectations.”

Joining FUTREND in December 2010, both Andrey and Albert immediately hit the ground running on the company’s Commercial Payment contract. Making sure to always put in their best efforts, they represents FUTREND in a positive light through their “customer first” philosophy and work ethic.

Abiding by one of FUTREND’s important corporate strategic objectives of “continuously innovating and improving its service delivery,” Andrey and Albert consistently portray FUTREND in a manner that reflects professionalism, dedication and integrity.

“The accomplishments listed on the awards are only possible due to the great support and efforts from the rest of the Commercial Payments Team,” says Andrey.

Albert agrees and says that “without the support from the rest of the Commercial Payment Team, I wouldn’t have been able to receive the Green Visor award.”
